

LBSA Corporate Partnerships

For 125 years, Laura Baker Services Association (LBSA) has been bringing the power of possibility to people with special needs. Since 1897, LBSA has been an integral part of the Northfield community. Our reputation as a respected regional provider of services for people with intellectual and developmental disabilities (IDD) and their families continues to grow.

For over 100 years, we operated largely as a provider of residential support and as a school. In recent years, we have adapted our services to ensure we can support people with a broad range of goals and dreams. Our program expansion includes Family Navigation, Housing Support and Behavioral Support Services.

Public/government support addresses 75% of our funding needs. We rely on community partners to ensure people with IDD are vibrant members of the community. **We ask you to join us as a corporate sponsor.**

Will you consider becoming a Corporate Partner of LBSA?

Your Corporate Partnership gift will be used to:

- Retain and develop high-performing, caring direct support staff that provide the right level of support based on the client's individual needs.
- Provide a home environment that balances the opportunities to develop friendships and the right level of independence for each person with safety and support.
- Give a voice to people with disabilities and engage the community to advocate for resources that benefit people with disabilities.
- Offer unique learning opportunities to local Northfield High School, Carleton College and St. Olaf students through internships and volunteer opportunities that enhance the lives of our clients.
- Assist people with IDD and their families to access services and support that make their lives more manageable and improve their quality of life.
- Support people with IDD to find and retain community housing through a variety of housing support services.
- Reduce barriers to care and support for people with IDD whose co-occurring mental health needs and behavioral challenges put them at risk of losing their current living, work or academic situations.
- Strengthen the community and ensure people with IDD can live the life they choose.
